

# Health and Safety Manager (M/F/D)

*Electrical Technology, full time, based in Rapperswil SG (CH)*

Join our team where we accomplish great things TOGETHER.

## Allow us to introduce ourselves...

We are a globally active family company whose sustainable and responsible actions contribute to improved living standards. We are an attractive employer with a value-oriented corporate culture based on trust, appreciation and continuous improvement.

**Weidmann Electrical Technology** has been at the heart of the global transformer industry for over 140 years. With deep rooted knowledge in the design, development and operation of transformers, Weidmann is a leading integrated solutions provider for specialized product and services in the energy sector.

## The role...

In this role, you will take the lead in shaping a strong safety culture and ensuring compliance with both legal requirements and global EHS standards at our Rapperswil site. With your excellent organizational and communication skills, your attention to details, and a hands-on mindset, you will drive sustainable environmental, health, and safety initiatives across the organization and serve as a trusted partner to both management and employees.

## How you'll make an impact...

- Develop a positive safety culture and safety risk assessments of all workstations
- Create and execute an EHS plan/roadmap for the workplace according to legal guidelines, and Weidmann global standards
- Develop and implement an environmental management plan in accordance with the Weidmann sustainability manager
- Develop trainings on EHS matters and cascade into the local management team, and to all employees
- Perform and coordinate ISO 45001 audits and internal safety audits
- Be responsible for EHS – reporting and support the management team for sustainable improvement actions
- Ensure that all hazards, near misses and accidents are professionally investigated and that the preventive actions are implemented sustainably
- Active participation in the EHS global working group

## What do you bring...

- Relevant Swiss safety certificate ("SUVA-Spezialistin/Spezialist ASGS" or "Expertin/Experte ASGS")
- Proven experience as safety manager; deep understanding of legal health and safety guidelines
- Valid qualification in occupational health and safety as well as in Project Management
- Ability in producing reports and developing relevant policies globally
- Good knowledge of data analysis and risk assessment
- Fluent English and German skills written and oral, every other language is an advantage

## What do we offer?

- Company contribution of 50% to an annual rail pass and the employee also receives the entire transport network (ZVV/Ostwind)
- Contribution and support from the company for internal and external further education
- Private insurance in case of accident
- Own cafeteria with food options at reasonable prices
- Central location in the middle of Rapperswil with close public transport connections and many restaurants and shopping opportunities

We look forward to hearing from you soon!
