

WEIDMANN

Shape our common future: The Weidmann Group is, and has been for over 140 years, a leading global supplier of engineered products and services. Weidmann develops and manufactures

- high-voltage insulation materials, components and systems, predominantly from cellulose, as well as diagnostics and engineering services, and sensors and monitors for transformer manufacturers and operators (Business Area Electrical Technology)
- microfibrillated cellulose for innovative engineered applications (Business Area Fiber Technology)
- sophisticated injection-molded plastics applications for the medical and pharmaceuticals industries (Business Area Medical Technology)

The Weidmann Group, headquartered in Rapperswil-Jona, Switzerland, is active worldwide in more than 30 locations and employs a staff of 3'200.

We are looking to recruit a moulder of the hand moulded parts to join our team based in Malyn, Ukraine.

Moulder of the hand moulded parts

Your tasks: Must be able to manufacture parts according to drawings.

Your qualifications: Knowledge of geometry, reading of drawings. Ability to work with measuring tools, namely: ruler, caliper, thickness measurement tool. Experience with pneumo-electric tools: drills, grinding tool, jigsaws

We are looking forward to receiving your complete application.
