

WEIDMANN

Weidmann in a nutshell

The Weidmann Group is, and has been for over 140 years, a leading global supplier of engineered products and services.

It develops and manufactures

- high-voltage insulation materials, components and systems, predominantly from cellulose, as well as diagnostics and engineering services, and sensors and monitors for transformers and transformer users (Business area Electrical Technology)
- microfibrillated cellulose for novel and engineered applications (Business segment Fiber Technology)
- sophisticated injection-molded plastics applications for medical technology customers (Business area Medical Technology)

The Weidmann Group headquartered in Rapperswil-Jona, Switzerland, is active worldwide in more than 30 locations and employs a staff of approx. 3'200. In 2017 it achieved net sales of 367 MCHF.
